PROFESSIONAL SUMMARY

Senior Full-Stack Engineer & AI Systems Architect with 10+ years building and modernizing production systems across Healthcare, Aviation, Logistics, and SaaS. Specialist in the VILT stack (Vue 3, Inertia, Laravel 13, Tailwind) and Domain-Driven Design, with hands-on delivery of production AI — RAG pipelines, LLM integrations, and vector search (pgvector). Track record of **\$1M/year cloud savings**, **30% latency reductions**, HIPAA-compliant architecture, and **0-defect deployments** while leading squads of 7+.

CORE SKILLS

- **Backend:** PHP 8.4+ (Enums, Property Hooks), Laravel 13 (ecosystem expert), Node.js, RESTful & event-driven APIs
- **Frontend:** Vue 3 (Composition API), Inertia.js, TypeScript, Tailwind CSS, React / Next.js, Nuxt.js
- **AI Engineering:** RAG, OpenAI & Claude APIs, pgvector & embeddings, semantic search, function-calling / structured outputs, response streaming (SSE), prompt-injection defense & hallucination mitigation, AI agents, prompt engineering
- **AI-Assisted Delivery:** Cursor, Claude Code, GitHub Copilot
- **Data:** PostgreSQL, MySQL (performance tuning), Redis, pgvector, SQLite (WAL)
- **Cloud / DevOps:** AWS (EC2, S3, Vapor), Docker, Nginx, GitHub Actions (CI/CD), Jenkins
- **Architecture:** Domain-Driven Design, Modular Monoliths, SOLID, Event-Driven Architecture, Pest, Vitest, PHPStan, Laravel Pulse/Telescope
- **Security:** OAuth2 / OpenID Connect, RBAC, HIPAA compliance, zero-downtime (Strangler) migrations
- **Languages:** PHP, JavaScript, TypeScript, Python, SQL

PROFESSIONAL EXPERIENCE

- **Infosys** Chandigarh, India
Lead Product Engineer & Architect Feb 2023 – Present
 - Led architectural transformation of legacy healthcare monoliths into decoupled Modular Monoliths using Domain-Driven Design (DDD) — **\$1M annual savings** and a **60% increase in user efficiency**.
 - Optimized high-concurrency Clinical Trial Management systems via Redis Queues (Horizon) and real-time data sync — **–30% monitoring latency, \$360K saved in 2024**.
 - Championed an AI-assisted engineering culture for a **squad of 7**; enforced Pest (server) and Vitest (client) standards for **0-defect deployments**.
 - Designed OAuth2 / OpenID Connect flows with Laravel Passport, ensuring **HIPAA compliance** for sensitive biotech research data.
- **Capital Numbers Infotech** Remote
Senior Software Engineer Aug 2022 – Dec 2022
 - Engineered a configurable Assessment Engine with real-time validation in a 5-month sprint, improving onboarding speed.
 - Built live recruiter analytics dashboards using Vue.js and WebSockets for instant pipeline visibility.
- **Logiware Inc.** Remote
Vue.js Developer (Migration Specialist) Mar 2022 – Aug 2022
 - Migrated monolithic warehouse systems to Vue.js & Laravel 9 — **16% operational efficiency gain**.
 - Architected granular Role-Based Access Control (RBAC) — **100% compliance** with logistics security standards.
- **Tata Consultancy Services (TCS)** Chandigarh, India
System Engineer Jul 2017 – Mar 2022
 - Automated engine-configuration tracking, eliminating **70% of manual data entry** with **100% audit accuracy**.
 - Developed predictive-maintenance modules for Aviation Engine Diagnostics — **–11% repair costs**.
 - Built interactive dashboards (Vue.js, Tableau) for mission-critical engine-health monitoring.

SELECTED PROJECTS

- **ZoetiCoach AI:** WhatsApp-first B2B2C accountability SaaS. Architected a Laravel modular monolith with an event-sourced ledger and a **production OpenAI RAG pipeline (pgvector)** for grounded habit verification on WhatsApp — sub-second responses with zero production hallucinations corrected. (zoeticoach.com)
- **Digital Builders:** AI-assisted engineering-agency platform with **autonomous, tool-using AI agents** and a conversion-focused delivery system. (digitalbuilders.in)
- **Dhanda Diary:** Multi-tenant business execution OS (Laravel 13 · Vue 3 · Inertia) with Web Push, streak engine, and ApexCharts analytics. (dhandadiary.cloud)
- **MyAstrova:** Next.js real-time consultation + commerce platform (chat/call, Kundli engine, Razorpay). (myastrova.com)
- **Krishan Balram Gaushala:** WhatsApp Cloud API automation and 80G receipt management for a non-profit. (krishanbalramgaushala.com)

EDUCATION

- **Vellore Institute of Technology (VIT)** Vellore, India
Master of Computer Applications (MCA) 2015 – 2017
 - Coursework: Distributed Systems Architecture, Advanced DBMS, Software Engineering Principles
- **Panjab University** Chandigarh, India
Bachelor of Computer Applications (BCA) 2012 – 2015
